SPECIFICATION AND EVALUATION

1. PURPOSE

Rubiquant Quantity Surveyor is appointed as the Principal Agent for the Project: **Department of Health: Nseleni Community Health Care Centre: 072009: New HR Buildings, Additional Clinical Space, Guard House, General Waste, Parking and Access Road**. An additional land was donated to the facility by the Traditional Council and that is the reason why the services of a Professional Town Planner are required based on the information below:

- 1.1 The Clinic's current encroachment onto a road reserve that is not being used.
- 1.2 The road P517 that is not on the provided road reserve but is located on the Ingonyama Trust Board land.
- 1.3 The consolidation of the current municipal land with the currently used ITB land as well as (if so desired) the additional land made available for expansion.
- 1.4 Cancellation of the servitude over the bulk sewer line and re-registering the servitude for the relocated but sewer.
- 1.5 If there are any SPLUMA applications, assistance is required in resolving any land use issues that could crop up, life rezoning (if required), applications for relaxation of restrictions within the by-laws, etc.

2. BACKGROUND

The Department of Public Works is seeking quotations from experienced and skilled Registered Professional Town Planners to serve as a supplementary to the Principal Agent being **Rubiquant Quantity Surveyor** for the services of Town Planning on disbursement to the Principal Agent. The successful candidate will be appointed as a sub-consultant to the Principal Agent.

3. SCOPE OF WORK/SPECIFICATION

3.1 The site that requires detailed Town Planning is listed below:

Nseleni Community Health Care Centre – City of uMhlathuze Municipality

3.2 The services required from the REGISTERED PROFESSIONAL TOWN PLANNER are:

- 3.2.1 Itemised breakdown of the services as per the various sections to be resolved, together with an estimated timeframe to do each relevant service. It must be noted that this is not an open-ended appointment and the successful candidate will be held to their timeframes as per the quotations offered.
- 3.2.2 The unused road reserve unto which the clinic currently encroaches has to be cancelled and the land incorporated into LOT 645 which the clinic is currently residing. If a new road reserve has to be created, this should be included in your proposal.
- 3.2.3 The new clinic site should be extended to the "ideal site boundary" if possible.
- 3.2.4 As there will not be a consolidation of ITB land and Provincial land, there is currently no input required.
- 3.2.5 The bulk sewer line will not be relocated due to funding issues but there is no servitude registered over this sewer line. On your advice, should a servitude be registered? Then include this in your quotation.
- 3.2.6 There is currently a second "entrance" into the site. This will be a necessity for the planned development. The Department cannot employ a Traffic Engineer to assist with applying for this entrance but it is also known that an approval cannot be obtained from the Department of Transport without the input of a Traffic Engineer. Therefore, the services of the Traffic Engineer must be incorporated into this quote. The proposed second entrance will be relocated closer to the bottom corner of the current site, as this would provide a more central entry point once the additional land from ITB is added.
- 3.2.7 Consolidation of the current municipal land with the current used ITB land.
- 3.2.8 Be able to assist in resolving any land use issues that could crop up, like rezoning (if required), applications for relaxation of restrictions within the by-laws, etc. if there are any SPLUMA applications.

Terms of Reference/ Specifications

1. PURPOSE

Rubiquant Quantity Surveyor is appointed as the Principal Agent for the Project: **Department of Health: Nseleni Community Health Care Centre: 072009: New HR Buildings, Additional Clinical Space, Guard House, General Waste, Parking and Access Road**. An additional land donated to the facility by the Traditional Council triggered the Environmental Impact Assessment (EIA) and that is the reason why the services of a Professional Town Planner are required based on the information below:

- 1.1 The Clinic's current encroachment onto a road reserve that is not being used.
- 1.2 The road P517 that is not on the provided road reserve but is located on the Ingonyama Trust Board land.
- 1.3 The consolidation of the current municipal land with the currently used ITB land as well as (if so desired) the additional land made available for expansion.
- 1.4 Cancellation of the servitude over the bulk sewer line and re-registering the servitude for the relocated but sewer.
- 1.5 If there are any SPLUMA applications, assistance is required in resolving any land use issues that could crop up, life rezoning (if required), applications for relaxation of restrictions within the by-laws, etc.

2. BACKGROUND

The Department of Public Works is seeking quotations from experienced and skilled Registered Professional Town Planners to serve as a supplementary to the Principal Agent being **Rubiquant Quantity Surveyor** for the services of Town Planning on disbursement to the Principal Agent. The successful candidate will be appointed as a sub-consultant to the Principal Agent.

3. SCOPE OF WORK/SPECIFICATION

3.1 The site that requires detailed Town Planning is listed below:

Nseleni Community Health Care Centre

3.3 The services required from the REGISTERED PROFESSIONAL TOWN PLANNER are:

- 3.3.1 Itemised breakdown of the services as per the various sections to be resolved, together with an estimated timeframe to do each relevant service. It must be noted that this is not an open-ended appointment and the successful candidate will be held to their timeframes as per the quotations offered.
- 3.3.2 The unused road reserve unto which the clinic currently encroaches has to be cancelled and the land incorporated into LOT 645 which the clinic is currently residing. If a new road reserve has to be created, this should be included in your proposal.
- 3.3.3 The new clinic site should be extended to the "ideal site boundary" if possible.
- 3.3.4 As there will not be a consolidation of ITB land and Provincial land, there is currently no input required.
- 3.3.5 The bulk sewer line will not be relocated due to funding issues but there is no servitude registered over this sewer line. On your advice, should a servitude be registered? Then include this in your quotation.
- 3.3.6 There is currently a second "entrance" into the site. This will be a necessity for the planned development. The Department cannot employ a Traffic Engineer to assist with applying for this entrance but it is also known that an approval cannot be obtained from the Department of Transport without the input of a Traffic Engineer. Therefore, the services of the Traffic Engineer must be incorporated into this quote. The proposed second entrance will be relocated closer to the bottom corner of the current site, as this would provide a more central entry point once the additional land from ITB is added.
- 3.3.7 Consolidation of the current municipal land with the current used ITB land.
- 3.3.8 Be able to assist in resolving any land use issues that could crop up, life rezoning (if required),

applications for relaxation of restrictions within the ,by-laws, etc. if there are any SPLUMA applications.
