

KWAZULU-NATAL PROVINCE

PUBLIC WORKS & INFRASTRUCTURE
REPUBLIC OF SOUTH AFRICA

BID NO: ZNT 07/26/27: The appointment of a Technical Support Team to assist with EPWP Co-Ordination in the Province of KwaZulu-Natal for a period of 1 year (12 months)

QUESTIONS AND ANSWERS

Question 1

The tender specifies professional registration with ECSA, SAQSA, or SACAP as a requirement for the Technical Support Advisor role. Our proposed Technical Support Advisor holds professional registration with the South African Council for the Project and Construction Management Professions (SACPCMP) as a Professional Construction Project Manager (PrCPM), in addition to relevant built environment qualifications and EPWP management experience. Could you please confirm whether SACPCMP registration as a PrCPM would be accepted as meeting the professional registration requirement for this role, given that SACPCMP is a recognised built environment professional council under the Council for the Built Environment, and PrCPM registration is directly aligned with programme and project management functions required by this role?

Response

Yes, SACPCMP registration as a PrCPM would be accepted as meeting the professional registration requirement for this role.

Question 2

Could you please clarify whether the Technical Support Advisor role includes sign-off responsibility for project designs or technical drawings or whether the role is limited to programme oversight, grant management, compliance, and stakeholder coordination functions?

Response:

No, the Technical Support Advisor role does not include sign-off responsibility for project designs or technical drawings. The EPWP consultant only provides support on EPWP-related specifications, they are not the project owners.

Question 3

Could you please clarify the formal reporting line for the Technical Support Advisor and the team - specifically, whether the team reports directly to a designated contract manager within

the Department, and how this relates to the Provincial, Metro, and District Steering Committees referenced in the scope of work?

Response:

The successful service provider will report the Office of the Head of EPWP within the Department. The organogram attached to the bid document does provide guidance on the reporting line from the district level up to the Technical Advisor
